

Year 2000 Compliance for Netscape Communications CommerceXpert Products

Netscape Communications Corporation ("Netscape") confirms that Netscape CommerceXpert Products ("CommerceXpert Products"), listed below, have been tested to certify that they are each "Year 2000 Compliant", as defined below, when configured and used in accordance with the related documentation; provided the underlying operating system ("OS") of the host machine, and any non Netscape-owned software provided with or in the host machine or CommerceXpert Products, also are Year 2000 Compliant; and all required patches are installed in conjunction with the purchased CommerceXpert Products.

- *ECXpert v1.1.1* *
- SellerXpert v2.0.0
- BuyerXpert v1.5.0
- PublishingXpert v2.0.0
- PublishingXpert v2.0.1
- PublishingXpert v2.2.0

*** The ECXpert product will require the ECXpert 1.1.1 Service Pack 1 to be Year 2000 Compliant. Please refer to the following URL location for the ECXpert 1.1.1 Service Pack 1 which includes the link for the patch download site and the related readme file: <http://help/filelib.html#ecx111SP1>**

The CommerceXpert Products rely on the date-handling capabilities of the underlying operating system. Processing and display of date information through the user interface is dependent on the date data provided by the underlying operating system, and will be correct if that OS and non Netscape-owned software are Year 2000 Compliant. Concerns regarding year-2000 compliance of the host operating system should be directed to the provider of that operating system.

Netscape has not tested this software on all platforms or all versions of operating systems that it currently supports. Therefore, it is imperative that the user of the software verify that the underlying operating system and platform support the transition to the year 2000.

Year 2000 Compliant is defined as the ability to: (i) correctly handle date information needed for the December 31, 1999 to January 1, 2000 date change; (ii) function according to the related documentation accompanying the CommerceXpert Products needed for the December 31, 1999 to January 1, 2000 date change, without changes in operation resulting from the advent of the new century assuming correct configuration; (iii) where appropriate, respond to two digit date input in a way that resolves the ambiguity as to century in a disclosed, defined and predetermined manner; (iv) if the date elements in interfaces and data storage specify the century, store and provide output of date information in ways that are unambiguous as to century; and (v) recognize year 2000 as a leap year.

To ensure customer satisfaction, Netscape is continuously testing our products to ensure Year 2000 compliance and other uses. As a result, the information contained in the Year 2000 compliance documentation is subject to change without notification. Netscape strongly urges you to visit our Year 2000 compliance site at the following URL address periodically to ensure you have the most current Year 2000 compliance information about Netscape products: <http://home.netscape.com/products/year2000/compliance/index.html>

If you are currently implementing a non-compliant version of any Netscape Communications CommerceXpert product, please contact the Netscape Corporate Sales Department at 650.937.2555.

If you require a hard copy of this document or further information, please visit our Customer Service home page and complete the Year 2000 Compliance Request form at the following URL location:
